RUBBER TIPS
INCLUDED

Specs

- Dimensions: 73" x 17" x 58" (L x W x H).
- For rolls up to 64" wide.
- Holds 15 rolls.
- Maximum roll OD: 6 1/2".
- Loading capacity 1,015 lb.
- Shipped disassembled.

Flat Packaging

Cutter (optional)

Part#: PGPHTIBRC

The ergonomic solution for roll storage!

Avoid back pain when loading and unloading rolls due to its ergonomic design.

Easy Rack has been designed to make your job easier. It has a hinge mechanism in all positions to reduce the overexertion needed when lifting heavy rolls from the ground that often will lead to back pains. Easy Rack is mounted on locking wheels and has a convenient handle to move it around your production area.

- Move and unload rolls effortless.
- Reduce times off work.
- No more back pain.

Specs

- Product dimension: 40" x 17" x 75" (L x W x H).
- For rolls up to 64" wide.
- Holds 16 rolls – 3" core.
- Maximum roll OD: 7 1/2".
- Loading capacity: 1,015 lb.
- Ships disassembled.

Flat Packaging

Lockout device to prevent that rolls fall out during transport

Roll storage system with hinge mechanism

Wall & optional Ground fixation!

Save space using your walls for roll storage

Use your empty walls to store your vinyl.

Wall Rack is the perfect solution to organize your print shop. It can be fixed on the wall and also on the ground for better stability. Mounting hardware is included.

Specs

- Product dimension: 72" x 9" x 66" (L x W x H).
- Holds 10 rolls.
- Maximum roll OD: 6 1/2".
- Roll size up to 64".
- Loading capacity 660 lb.
- Ships disassembled.

Baseboards or wiring ducts are not a problem

CompactLifter

Part#: PGPHTICL

Hydraulic Foot Pump

Our entry-level media roll lifter to avoid back injuries takes almost no space in your print shop.

How it works

Transport position. The forks move upwards to hold the roll.

Working position. The forks work horizontally to load/unload the printer.

Loading/unloading position. The forks move downwards to easily load and unload the roll from/to the ground.

Three positions

Specs

- For Rolls up to 440 lb & 200".
- Lifts up to 4'.
- Ramps lock up to prevent the roll from rolling off.
- Multi directional wheels so you can go through standard doors.
- Takes up very small floor space – 22 1/2" x 25 1/2" (W x L).
- Wheels have breaks to make it easy to roll the media up the ramp.

440 lb 200" 4'

Plastic Cutting Pads for Corner Rounder (3pcs)

PLASTGrommet **manufactures** a complete range of squeegees for different applications, from windows graphics up to Chrome films.

All of them feature two raised areas in the middle to offer a nice and good grip, four rounded corners and they are available in two sizes, 4" and 6".

Everyday-Use

Daily use Squeegee – Green

This squeegee model can be used for light applications on solid flat substrates.

4" (10 cm) >

[Part#: PGSQGGREEN4](#)

6" (15 cm) >

[Part#: PGSQGGREEN6](#)

Daily use Squeegee – Blue

This model has a higher flexibility rate and a medium memory.

4" (10 cm) > [Part#: PGSQGBLUE4](#)

6" (15 cm) > [Part#: PGSQGBLUE6](#)

Felt Edge Squeegee – Red

Our red felt edge squeegee is a unique combination of our everyday-use squeegee with a soft, smooth felt edge to protect the surface of digital prints.

CLEAR PLASTIC GROMMETS

The ultimate grommet solution for banners:

1

Virtually invisibles

The clear material makes them almost invisible, enabling them to blend with the rest of your banner design.

2

No rust

Perfect for outdoor use (UV resistant), forget about the rust marks of metal grommets on the banners.

3

Cal Prop 65 compliant

Our clear grommets have been tested under Cal Prop 65.

4

Recycling advantages

Perfect match for printers using PP or HDPE banners as there is no need to remove the grommets before the shorting process when recycling.

5

Strong and durable

When performing tensile strength tests, results show that a hemmed PVC banner ripped off at 360 lbs but the grommet wasn't affected at all.

No more
rust!

Clear grommets are ideal for many applications as they are made from quality materials and are not damaged by rust or other corrosive elements, making them perfect for outdoor use.

The clear material makes them almost invisible, enabling them to blend with the rest of your banner design. In addition, they can be recycled and can last for years.

Clear grommets are the answer to your banner display needs and are perfect for a variety of applications including: Coroplast, PVC banners and X Banner stands.

★★★★★ MANUFACTURED IN EUROPE

#3 Grommet (Ø12mm)

Part#: PGOA12TQ

500pcs per pack

#3 Long Neck Grommet (Ø12mm)

Part#: PGOA12TLQ

500pcs per pack

- Choose regular or long neck (Coroplast or heavy media).
- You can use each model on PLASTGrommet equipment without having to change the dies.
- Always use our grommets with the dies specially manufactured for them.

GROMMET PRESSES

HPS025 Part#: PGHPS025

Portable self piercing grommet press for #3 clear plastic grommets.

Our entry level hand press is the perfect tool for small sign shops. There is no need to work on a fixed position and you can easily set grommets on your bench or ground.

This grommet press has been designed to set clear grommets on different materials as PVC banners, Coroplast... but not on fabrics where it can create wrinkles around the grommet.

Reasons why you shouldn't miss this hand press:

- No need to precut the material, machine does cutting and setting in a single operation.
- Portable, move the press and not the banner.
- European manufacturing.

Queen & SpeedQueen

Pneumatic

Our range of lightweight pneumatic grommet machines offers shop owners an affordable way to finish their banners and print jobs effortless, reducing their production times and ensuring a constant quality setting during the finishing process.

These grommet presses have been designed to set PLASTGrommet #3 clear grommets on different type of materials: PVC banners, Coroplast... but not on fabrics where they can create wrinkles around the grommet.

Reasons to upgrade to a pneumatic press:

- No effort required to grommet banners.
- Safety guard that covers setting area.
- No assembly needed, just plug the air hose.
- #3 die for clear plastic grommets included.
- Heavy duty machine for large volume shops.
- Lightweight, easy to move (24 lb).

Cut Material

★★★★★
MANUFACTURED IN EUROPE

1

Quality assurance

On the setting process, if grommets or washers are not in the right position machine won't work. If washer is half-way in, a blower automatically will help the washer to reach setting area.

2

Maintenance warnings

When maintenance is due (based on number of grommets set), a warning message will be displayed. It is always better preventive maintenance rather than having to wait for troubles.

3

Safety first

To avoid risks and hazards machine has guards and protective devices. If any of them is removed machine won't work and a warning message will be displayed.

4

Double washer supply

Washer raceway has a unique twin channel supply system. One acts as backup and only works when the main one is empty, everything controlled by a PLC.

5

Pre-cutting mode

Avoiding wrinkles on fabrics is always tricky. Multipress has a unique automatic mechanism in which machine performs a double cycle just by pressing the pedal once. First cutting only and then setting, offering a perfect finishing.
